About me

I'm fond of photography. I'm constantly expanding my technical horizons.
I'm interested in technological innovations. I dream of making the whole house "smart". I love animals, I keep a dog and a cat at home. I support English with a personal tutor. I am friendly with complex SQL queries.
I'm easy to learn! This is a fact!
I can work in a team, I can work alone, I am hardworking, I do not like to sit idle, I have my own point of view, I can build relationships with people regardless of their gender or religion.
